Who Are We?

Riyadh Al Taif Trading & Contracting Co. (SRT) proudly stands as one of the most esteemed company in Saudi Arabia. With an unwavering commitment to quality and a diverse range of services, we have garnered a reputation as a leader in waste management and recycling, steel forming, fabrication, contracting, construction, logistics, energy, and electricity.

S.R.T

Our company's success is rooted in our extensive experience and exceptional track record in implementing construction projects, electrical equipment installations, and industrial and civil installations. We have demonstrated time and again our ability to deliver outstanding results, earning the trust and admiration of our clients.

In the field of waste management and recycling, we employ innovative strategies and environmentally-conscious practices to ensure sustainable solutions for waste disposal. Our expertise in steel forming and fabrication enables us to create durable and precise structures that withstand the test of time. As contractors, we excel in bringing projects to life, combining efficiency and attention to detail to deliver on schedule and within budget. Furthermore, our construction capabilities encompass a wide range of sectors, from residential to commercial and industrial.

At SRT, we understand the importance of seamless logistics to support the smooth operation of projects. Our reliable logistics services ensure timely and efficient transportation of goods and materials. Additionally, our energy and electricity solutions provide reliable and sustainable power sources, contributing to the success and efficiency of various ventures.

We take great pride in our company's distinguished reputation and our ability to consistently exceed expectations. Our team of seasoned professionals is dedicated to delivering excellence in every project we undertake.

Join forces with Riyadh Al Taif Trading & Contracting Co. (SRT) and experience the unparalleled expertise and unwavering commitment to excellence that sets us apart. Contact us today to embark on a journey of success and discover how we can contribute to the realization of your vision.

Company's policy

SRT's commitment to safety, security, quality, health, and environmental sustainability. The Company has implemented a comprehensive program to ensure the safety and security of its employees, clients, and assets, while also prioritizing sustainability and minimizing its impact on the environment. SRT's efforts to minimize risks and protect against potential threats reflect its commitment to conducting its business in a responsible and sustainable manner, while delivering high-quality services to its clients.

Safety and Security:

In terms of safety and security, SRT maintains strict protocols to ensure that all employees are trained in best practices for safety and security in the workplace. This includes regular training on proper handling and storage of hazardous materials, safe driving practices, and emergency response procedures. The company also conducts regular safety audits and inspections to identify and address potential hazards before they become a problem. In addition, SRT maintains strong relationships with local law enforcement and emergency services to ensure a quick and effective response in the event of an emergency.

The quality

In terms of quality, SRT's commitment to maintaining high-quality standards across all aspects of its business. Quality is indeed a fundamental aspect of SRT's operations, and the company strives to ensure that all work is carried out to the highest standards, in accordance with technical specifications and industry best practices. SRT maintains a rigorous system of continuous monitoring and control to identify and address any issues that may arise in the course of its operations, which reflects the company's commitment to ongoing improvement. SRT's investment in the necessary resources and expertise to maintain the highest levels of quality further demonstrates its dedication to delivering high-quality products and services to its customers.

Health & Environment

In terms of health and the environment, SRT's commitment to promoting sustainable practices and minimizing its impact on the environment, as well as the company's efforts to prioritize the health and well-being of its employees. SRT has indeed implemented a number of measures to reduce its carbon footprint and minimize waste, including recycling programs and energy-efficient practices. The company's focus on sustainability reflects its dedication to conducting its business in a responsible and sustainable manner. SRT also places a strong emphasis on the health and well-being of its employees, and provides a safe and healthy work environment through regular health and safety training, ergonomic assessments, and other initiatives.

Mission

Our mission is to be the only choice for our clients by providing the highest level of service and a service-oriented approach to meet all their needs. We guarantee complete satisfaction. We strive to build strong relationships with our clients by gaining a thorough understanding of their business, assessing their current and future requirements, and sharing their vision. We assist in developing and realizing their vision with integrity as our top priority.

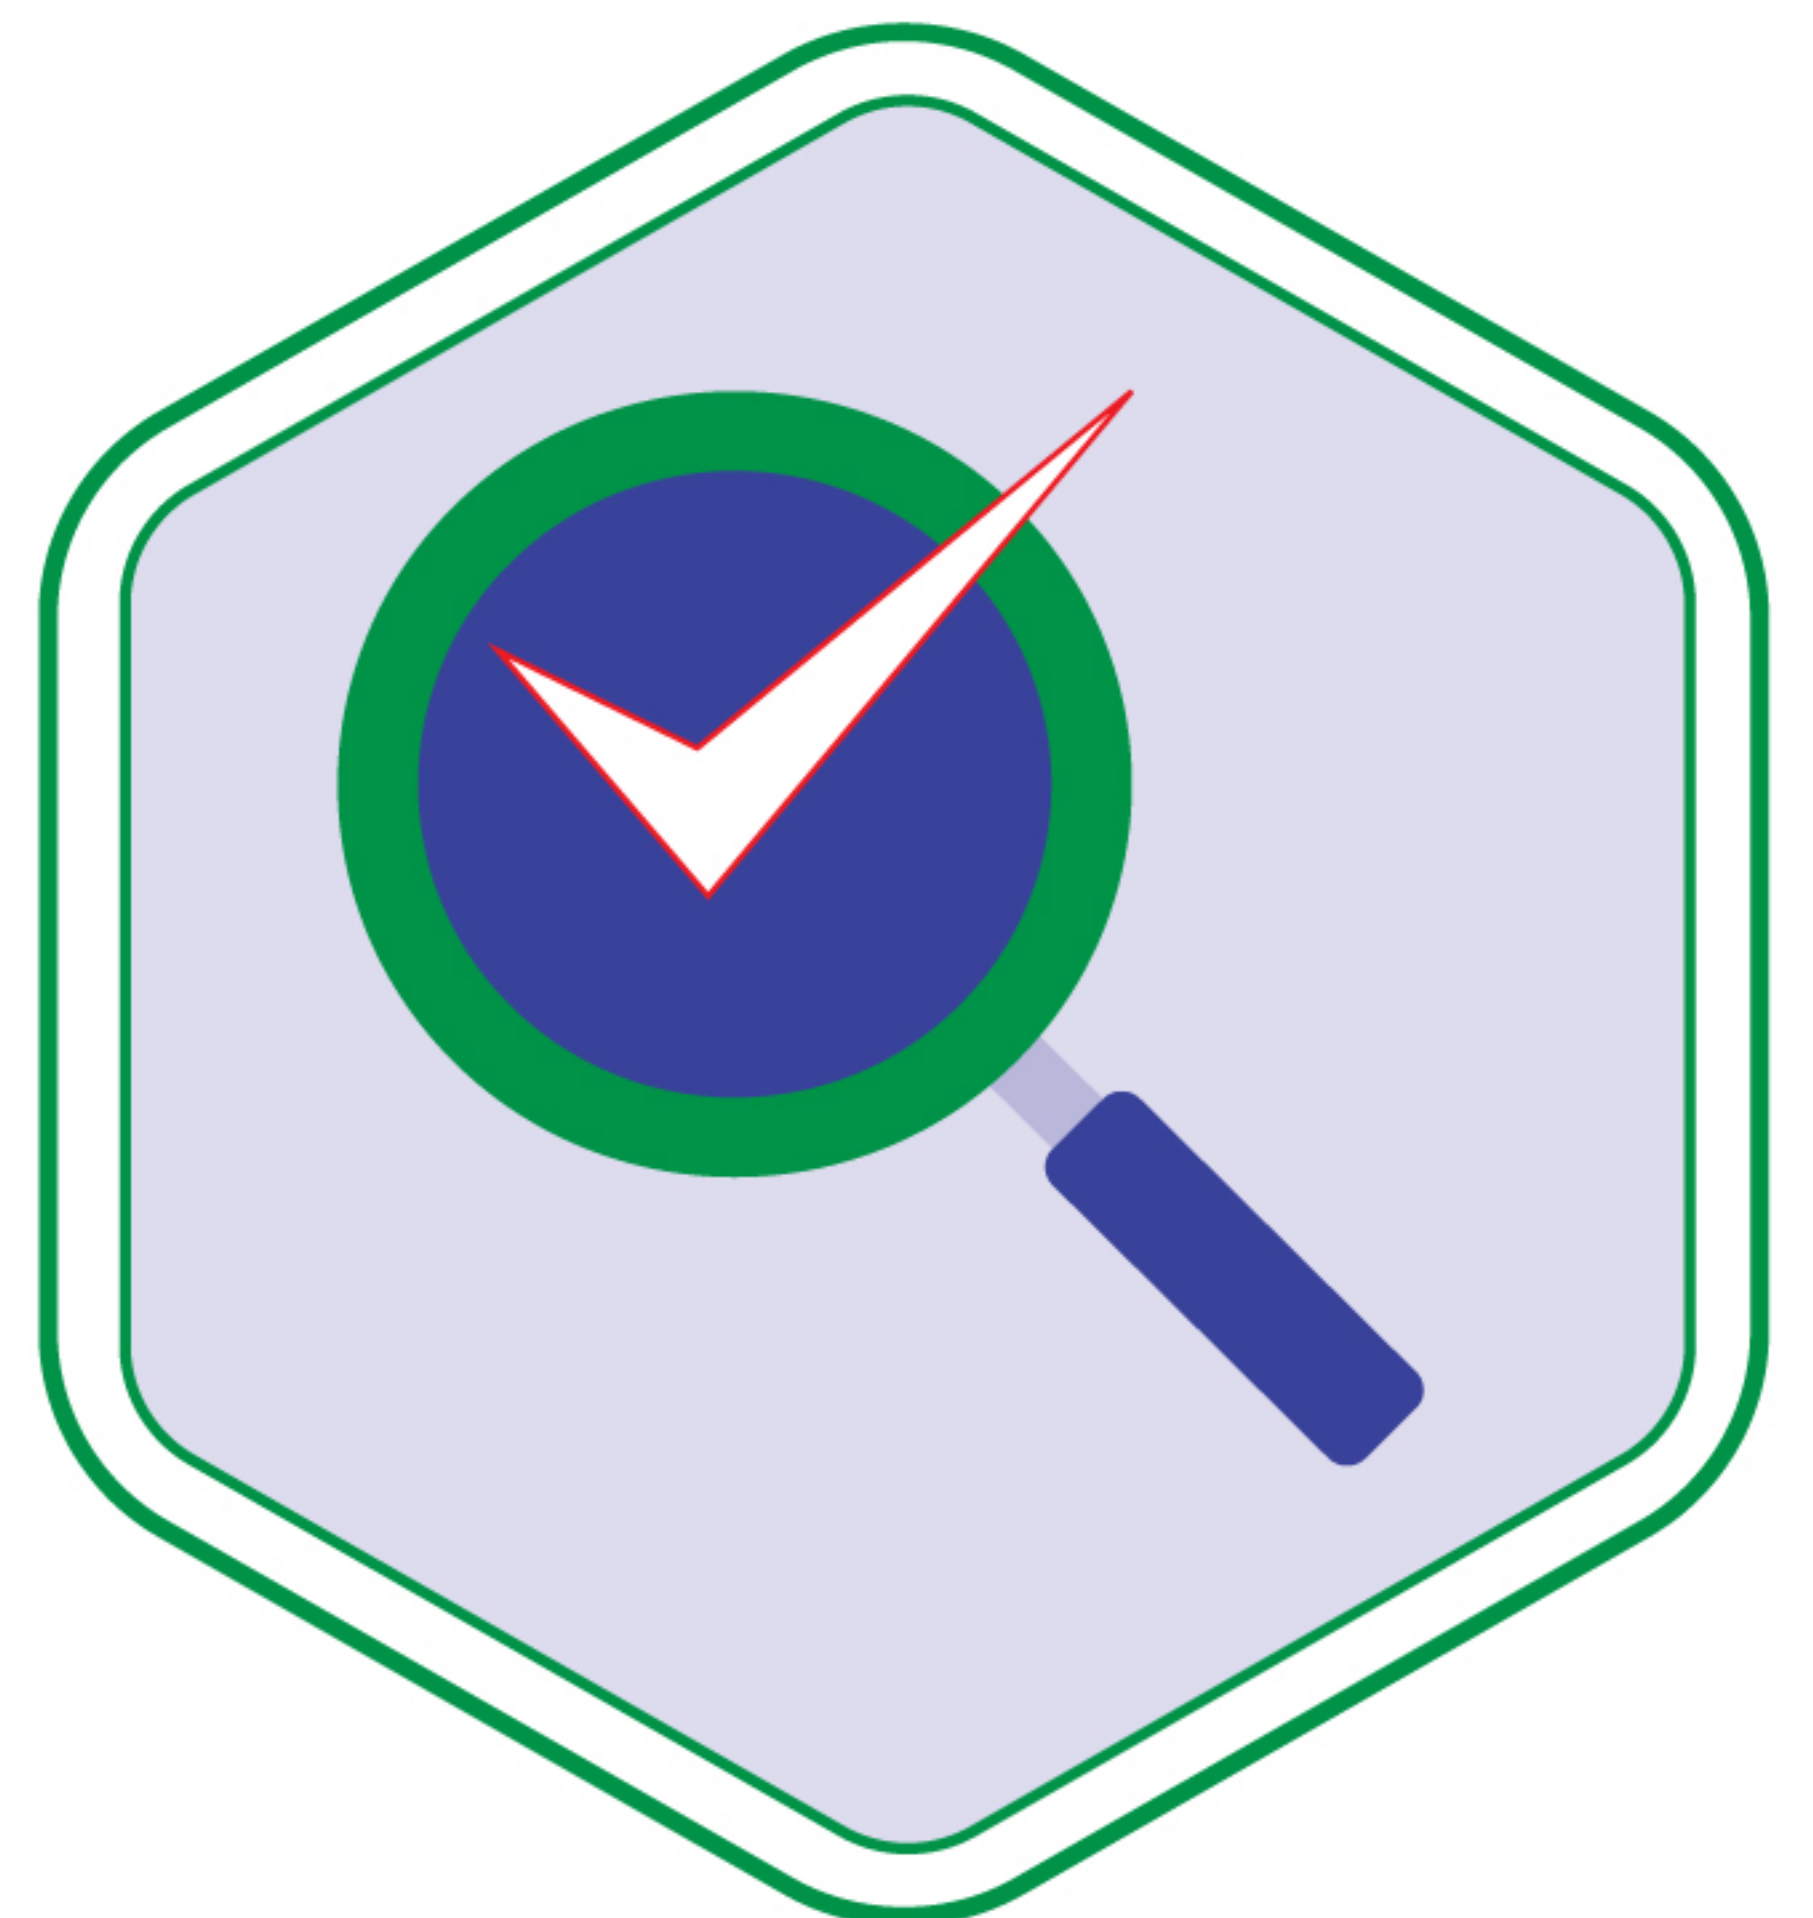

Vision

Our vision is to become the most reliable and efficient service provider, offering a broad spectrum of high-quality services and products. We are committed to achieving service excellence and being renowned for our integrity and ability to deliver on time and accurately. We continually strive to improve our processes for the benefit of our customers.

Approach

Our approach is to provide a fully integrated service delivered by a committed and well-equipped team capable of meeting all your needs. Regardless of your requirements, our first priority is to gain a thorough understanding of your business needs. We then efficiently deal with each task as it arises to ensure timely and effective delivery of our services.

WASTE MANAGEMENT

BUSINESS ACTIVITIES (WASTE MANAGEMENT)

Riyadh Al Taif Trading & Contracting Co. (SRT) for Industrial Waste Management, Scrap, Recycling is a leading company in the field of waste management and environmental sustainability in Saudi Arabia. The company provides comprehensive and sustainable solutions for waste management and recycling to businesses and organizations.

The goal of SRT for Industrial Waste Management, Scrap, Recycling is to minimize the environmental impact of waste and contribute to building a more sustainable and environmentally clean society. Continuous improvement and customer satisfaction are among the company's top priorities in achieving these objectives.

TRADING & CONTRACTION

WASTE MANAGEMENT & SCRAPE

KEY OBJECTIVES

1. **Industrial Waste Management:** The company offers integrated services for the collection, sorting, and treatment of industrial waste. It employs modern techniques and advanced methods to handle waste in a safe and environmentally friendly manner. The company aims to achieve the highest levels of efficiency and quality in industrial waste management.
2. **Recycling:** SRT promotes a culture of recycling and optimal utilization of recyclable materials. It sorts and processes waste in ways that contribute to the recycling and reuse of secondary materials, reducing reliance on primary resources. Through these efforts, the company achieves a reduction in the use of natural resources and minimizes the negative environmental impacts of waste.
3. **Environmental Sustainability:** The company works to enhance environmental sustainability by improving waste management practices and promoting environmental awareness. It strives to strike a balance between economic, social, and environmental needs, and encourages the use of environmentally friendly practices in all aspects of its work.
4. **Innovation and Development:** SRT is committed to continuous innovation and the development of new and effective solutions in the field of waste management and recycling. It keeps up with technological advancements and adopts best global practices to improve its performance and provide better services to its clients.

WHAT ARE THE TECHNIQUES USED BY SRT IN THE TREATMENT OF INDUSTRIAL WASTE?

SRT for Industrial Waste Management utilizes a variety of technologies for industrial waste treatment. Here are some common technologies used by the organization:

1. **Classification and Sorting:** The company employs classification and sorting techniques to separate and collect different types of industrial waste based on their various properties such as size, components, and chemical composition. This classification and sorting enable the reuse of recyclable materials and identify the best methods for the safe disposal of hazardous substances.
2. **Physical Treatment:** Physical treatment technologies include distillation, evaporation, compaction, and compression. These techniques are used to separate valuable materials from waste or reduce the volume of waste before safe and proper disposal.
3. **Chemical Treatment:** Chemical techniques include oxidation, fermentation, coagulation, and precipitation. These techniques are used to convert hazardous materials into non-harmful substances or extract valuable materials from waste.
4. **Biological Technologies:** Biological technologies involve the use of genetically engineered organisms, microbes, and bacteria to convert industrial waste into non-harmful substances or extract valuable materials. Processes such as fermentation and biodegradation can be employed to achieve this.
5. **Thermal Technologies:** Thermal technologies include combustion, drying, and heating. These techniques can be used to convert industrial waste into thermal energy or to dry waste before disposal.
6. The specific technologies employed may vary depending on the type of industrial waste, environmental requirements, and local regulations. The organization aims to select the most effective and appropriate technologies to ensure safe and environmentally sound disposal of industrial waste.

LOGISTICS SECTOR ▯

Logistics Services Sector

Customs clearance & Forwarding Services.

We offer customs clearance and forwarding services to facilitate the smooth transportation of your goods across borders. Our experienced team ensures that your shipments comply with all relevant regulations and are cleared efficiently. We also provide forwarding services to ensure that your goods are delivered to their destination on time smoothly and efficiently, without any delays or complications.

LIST OF CUSTOMS CLEARANCE SERVICES

Here is a list of some of the customs clearance services provided by SRT :

1. Fast customs clearance: Providing fast and efficient customs clearance services, including preparing necessary documents, providing guidance, and executing customs procedures quickly.
2. Import and export facilitation: Offering guidance on customs procedures and facilitating import and export operations.
3. Customs consultation: Providing consultation on customs procedures, legislation, and laws related to international trade.
4. Customs tax management: Managing customs taxes and fees imposed on materials, products, and goods.
5. Hazardous materials clearance: Providing customs clearance services for hazardous materials in compliance with international standards and customs regulations.
6. Logistics services: Providing transportation, shipping, customs clearance, storage, packaging, and delivery services to customers.

Logistics Services Sector

Transportation Services

Riyadh Al Taif Trading & Contracting Co (SRT) has a fleet that ranges from small vans to 80-tonne gross curtain-siders, which allows us to provide the right vehicle for each and every job. We take pride in the high standard of modern equipment that we operate and strive to maintain our high service levels. To ensure the efficiency and reliability of our fleet, we replace our vehicles before they pose a threat to our service standards.

Our pallet distribution and road transport services are comprehensive and include:

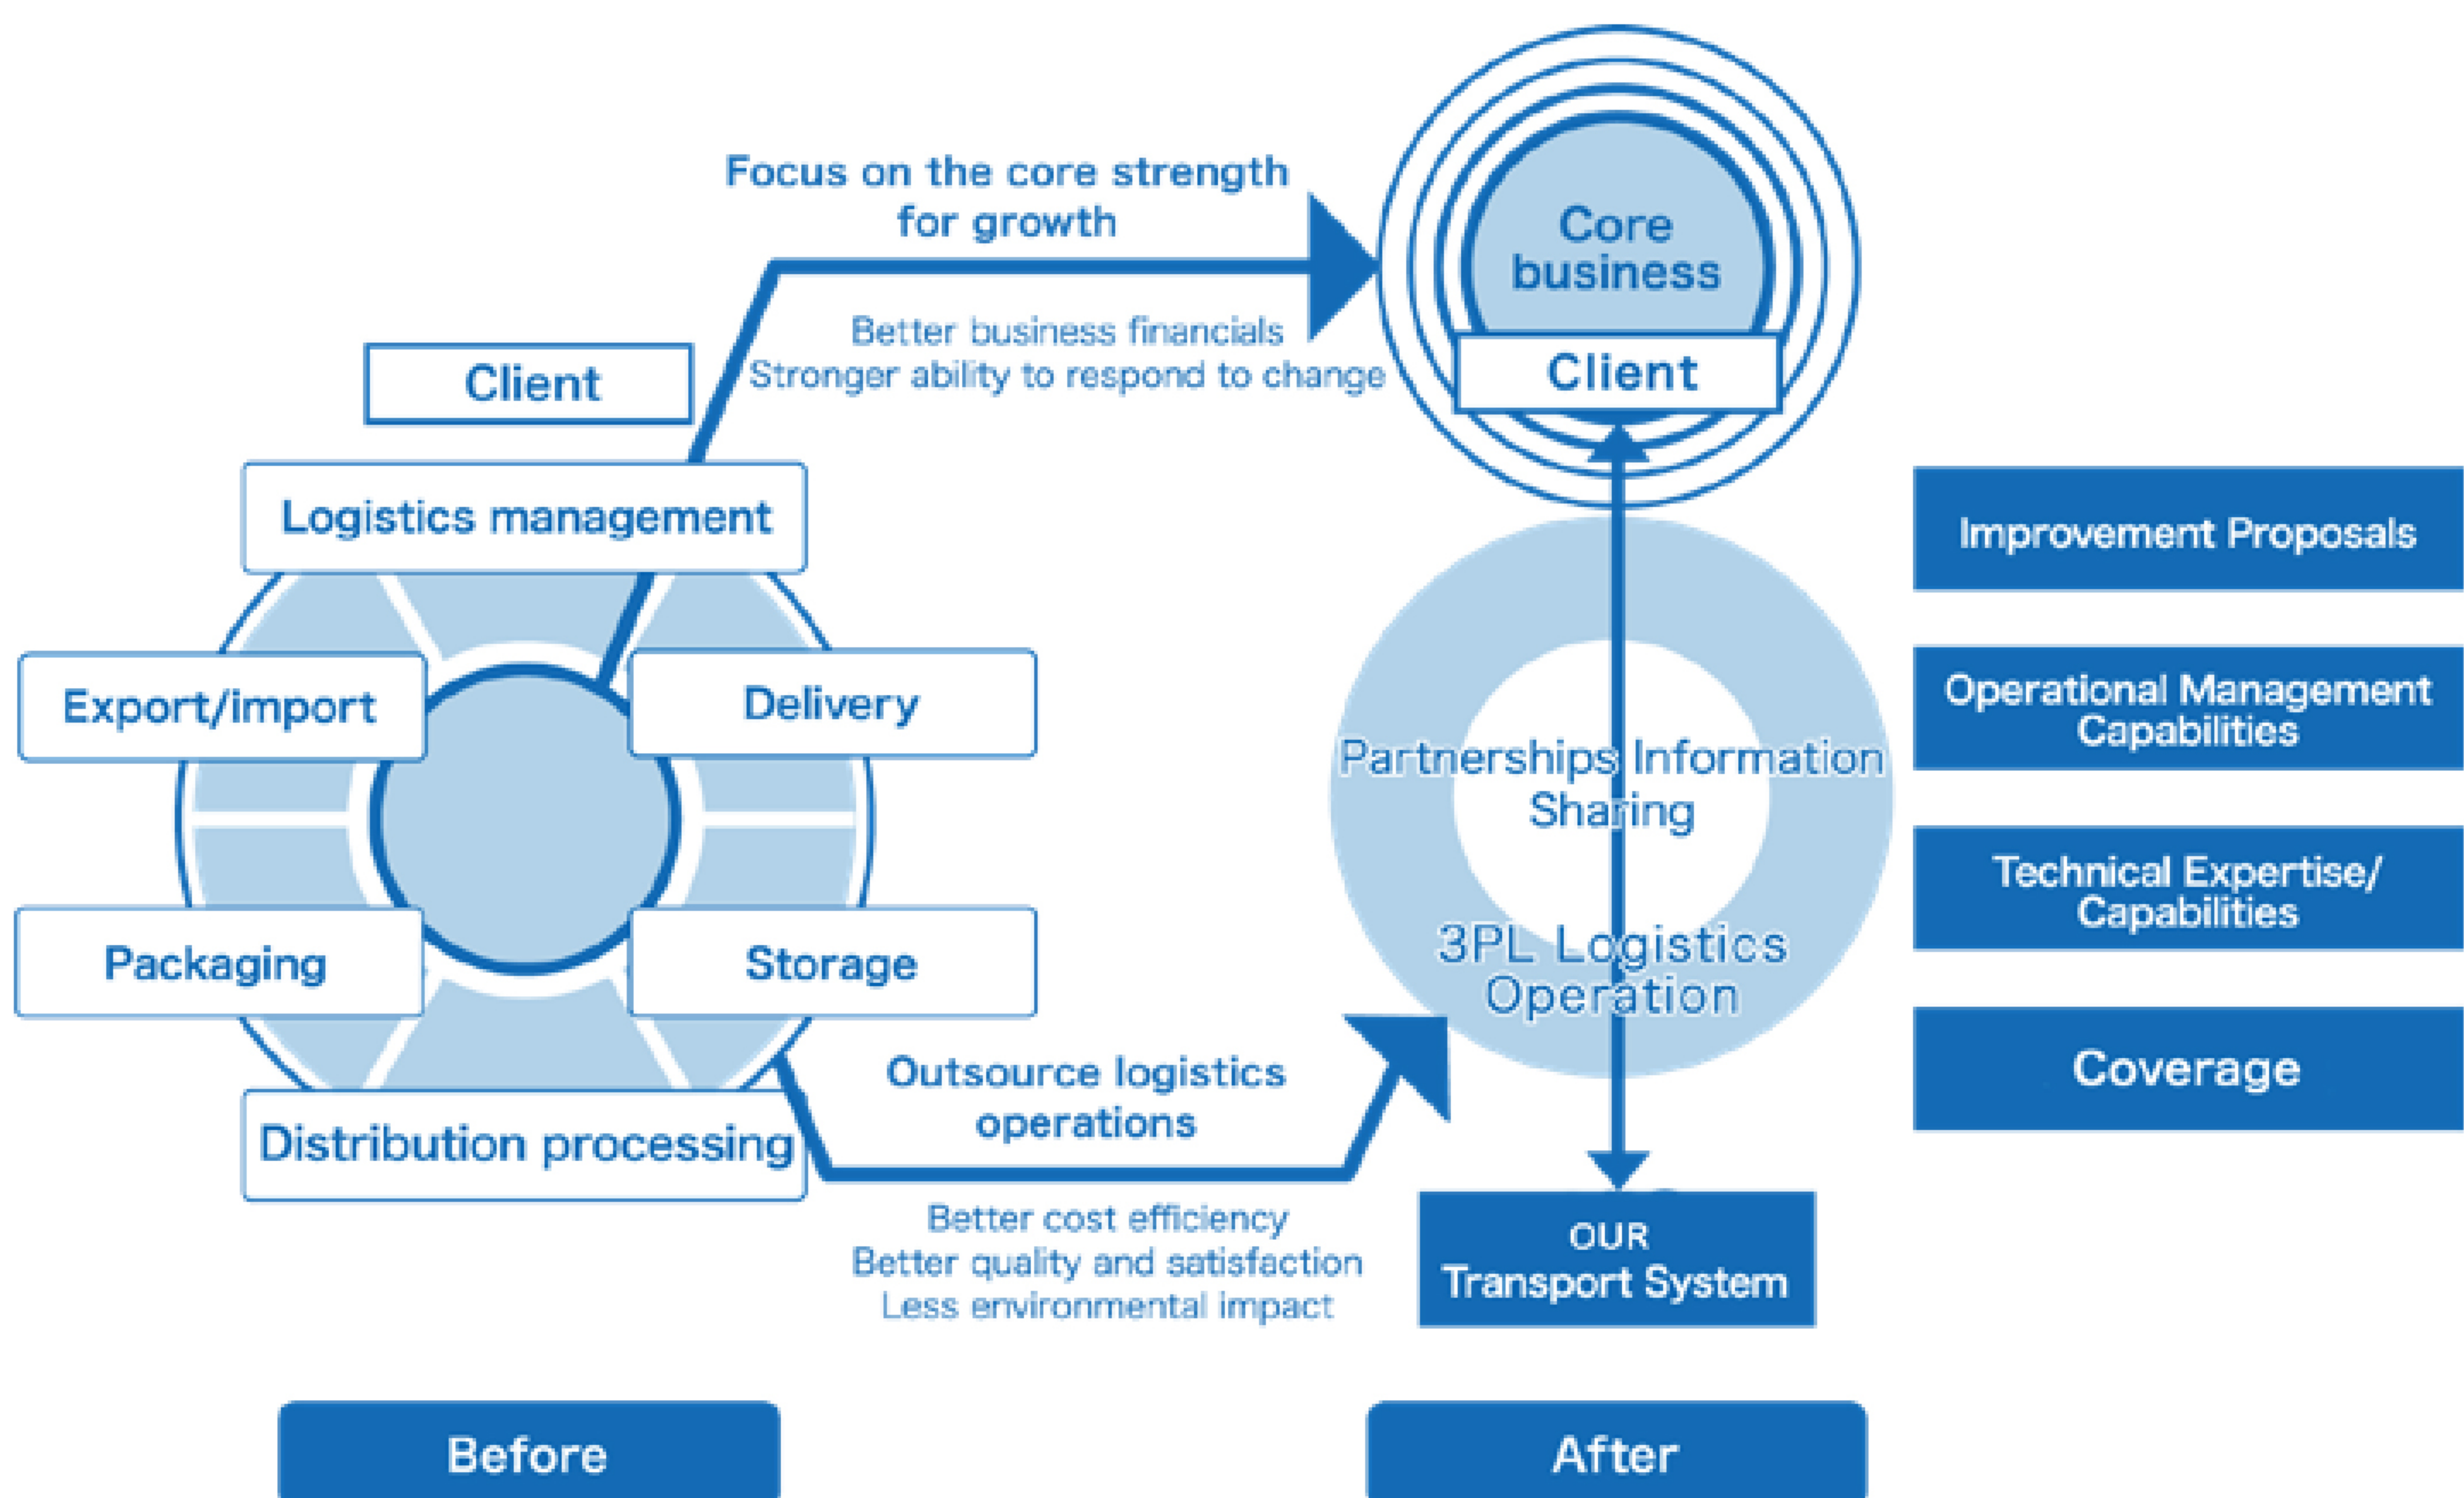

- Groupage Services: For larger consignments when either economy or deadlines are your key considerations.
- Full Load Services: We offer nationwide delivery of full loads on our modern fleet.
- Dedicated Services: If your consignments are time-critical, we provide dedicated vehicles that collect and deliver your goods within agreed timeframes.

Contract Logistic Process

At SRT, we are prepared to address any 3PL (third-party logistics) challenges you may face. We have significant experience in Contract Logistics operations and have achieved success in handling various accounts. Our services are acknowledged for the following features:

- **Reliability:** We understand the importance of timely and accurate logistics operations, and we strive to deliver our services with the utmost reliability.
- **Customization:** We tailor our solutions to fit your unique requirements, ensuring that you receive the best service possible.
- **Transparency:** We maintain clear communication with our clients throughout the logistics process, providing regular updates and ensuring transparency in all our dealings.

TRADING & CONSTRUCTION

DEMOLITION

شركة رياض الطائف
RIYADH AL-TAIF CO.
للتجارة والمقاولات TRADING & CONTRACTION

We specialize in delivering comprehensive demolition services tailored to meet the specific needs of both residential and commercial projects. With years of experience in the industry, we have built a reputation for being a reliable, efficient, and safety-conscious partner for any demolition job, no matter the scale or complexity.

Our Demolition Services Include:

Residential Demolition: Whether it's an entire home, a portion of a building, or simply a garage or shed, our residential demolition team works quickly and safely to ensure the job is completed with minimal disruption to the surrounding environment. We also handle waste removal and recycling to ensure responsible disposal.

Commercial Demolition:

We offer large-scale demolition services for office buildings, retail spaces, warehouses, and more. Our team understands the unique challenges of commercial projects, including the need to minimize downtime and disruption to neighboring businesses. We use advanced equipment and methods to ensure the job is done with precision and efficiency.

Interior Demolition

Sometimes, a building requires only selective demolition inside the structure. We offer interior demolition services for remodeling or renovation projects, carefully removing walls, floors, ceilings, or any unwanted features while preserving the integrity of the remaining structure.

Structural Demolition

Whether it's removing outdated or unsafe structures, we provide complete structural demolition solutions. Our experienced team uses cutting-edge techniques and equipment to safely bring down buildings, ensuring compliance with all local regulations.

Environmental Remediation and Hazardous Material Removal: We are certified to handle hazardous materials, including asbestos, lead, mold, and other contaminants that may be present during the demolition process. Our experts ensure that all safety protocols are followed for the safe removal and disposal of such materials.

Site Preparation and Clearing: After demolition, we also provide site clearing and preparation for new construction. Our team ensures the site is clean, level, and ready for the next phase of your project.

Ms/Riyadh altaif for general contracting Est.

The management of the Turkish company Dogus Constraction, one of the companies operating in the Riyadh Metro, attests that Riyadh Al-Taif Company is working with us as a contractor in the field of buying and collecting scrap and providing other logistical services such as maintenance, services, loading, downloading and simple construction works.

During their works they are accurate and professional, we commend them, and we wish them further development and progress.

Riyadh Metro Package 3. Line 4, 5 & 6 Construction Joint Venture (CJV)

Date: 29th April 2024

To: Riaydh Altaif for General Contracting
Project: Riyadh Metro Package No.3
Subject: Letter of Appreciation

Dear Sirs,

We write to express our appreciation for the works completed by Riaydh Altaif for General contracting (hereinafter referred to as the "Riaydh Altaif"), as a Subcontractor for FAST Consortium in the Riyadh Metro project (Package 3), which includes the removal and moving of the temporary buildings including their supplements, and various equipment for the Lines 4, 5, and 6 of the Riyadh Metro.

Your consistent communication with us and the ability to coordinate within a project of this magnitude was essential, we appreciate the collaboration and effective communication that has been maintained throughout our partnership.

On behalf of FAST Consortium, we extend our appreciation to Riaydh Altaif for their completion of the work as required. We recognize the commitment displayed by their team, and we look forward to the continued success of our collaboration.

Yours sincerely,

FAST Consortium
